foodcore
Leeds . Grenville . Lanark

FoodcoreLGL is a coalition of food activists and organizations who take practical steps to realize the vision of the *Leeds-Grenville-Lanark Food Charter*. The Charter describes an aspirational vision of the region's food system where food producers, eaters, community organizations, businesses, institutions, and local governments work together to create a future where:

- The right to food is realized in our communities;
- Our farmers, growers, producers, processors and retailers are thriving;
- Our communities have high food literacy;
- Our natural environment is thriving;
- Our communities are resilient; and
- Food and farming are celebrated.
